

# How does your school compare?

Measure your school's performance against the rest of the US in the Programme for International Student Assessment (PISA), as well as around the world, with the OECD Test for Schools.

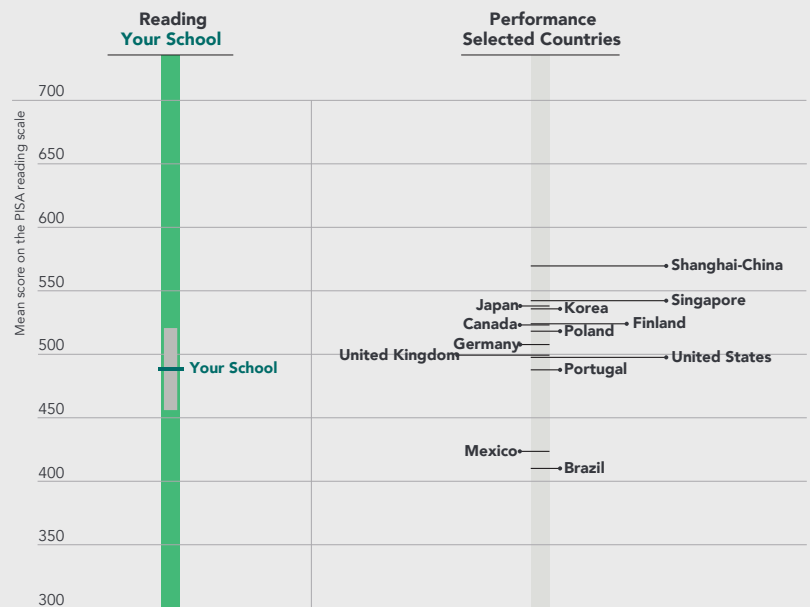

## What is the OECD Test for Schools?

It's a school-level assessment that provides valuable insights on your school's academic performance and its learning environment.

The test is based on the Organisation for Economic Co-operation and Development (OECD)'s world-renowned Programme for International Student Assessment (PISA).

## How is it different from PISA?

While PISA delivers national-level results, the OECD Test for Schools delivers school-level results. Because both assessments are based on the same framework, the results are comparable, allowing your school to benchmark its performance with that of national education systems worldwide.

PISA

Shows how well a **country** is performing

OECD Test for Schools

Shows how well a **school** is performing

# How will the OECD Test for Schools empower your school?

## By helping your school to:

- ✓ Introduce competence-based assessment
- ✓ Build capacity for data-driven school improvement
- ✓ Benchmark its performance internationally
- ✓ Connect with and learn from other participating schools

## Fast Facts

### Age Assessed

Representative sample of 15-year-olds

### Sample Size

85 students per school

### Frequency

Once per school year

### Test Time

2 hours

### Subject Areas

Reading, mathematics and science

### About Janison

Janison delivers the OECD Test for Schools in the US and is the OECD's global technology partner for the test platform.

# What will my school receive?

- ✓ Global benchmarks that allow your school to compare itself to others in the US and around the world
- ✓ Information that informs instructional practice improvements and program changes
- ✓ Insights into your students' attitudes towards learning, their learning environment and their socioeconomic background – helping your staff guide excellence and equity
- ✓ A comprehensive report on how your school performs in core subjects, applying knowledge and higher order thinking skills
